

NTPS FIRE-FIGHTERS' BULLETIN 17

REVISED OFFER

Increased Minimum Staffing and retain existing conditions

In responding to a letter from United Voice my representatives met with the union on Thursday to continue negotiations. In an attempt to resolve bargaining I have made a revised offer which includes:

- Five 3% pay increases over the life of the agreement;
- Retention of all existing terms and conditions;
- Increase in minimum staffing to include Berrimah station;
- Inclusion of travelling distances to Berrimah station;
- Inclusion of the relativity changes for Station Officers;
- Agreement to expire on 7 November 2018.

A copy of the letter of offer can be found [here](#).

I encourage all employees to genuinely consider the revised offer which provides for pay increases, increased minimum staffing levels and retention of all existing terms and conditions.

Although the Union will be canvassing members over the coming weeks any Fire Fighter who wants to provide me with direct feedback on the offer can do so at www.enterpriseagreements.nt.gov.au/feedback/
